- **Communication:** Effective collaboration and client interaction

LANGUAGES

- Arabic: Native
- Turkish: Fluent
- English: Intermediate

WORK EXPERIENCE

Web Developer   December 2022 - Current
Freelance

As a freelance web developer, I have successfully worked with a diverse range of clients, including contracting companies, restaurants, and personal portfolios. Collaborating closely with clients, I translated their requirements into visually appealing and functional websites. Utilizing my expertise in HTML, CSS, and JavaScript, I developed responsive and interactive websites, ensuring seamless user experiences. By employing efficient coding practices, I prioritized cross-browser compatibility and optimized website performance. Throughout each project, I maintained clear communication, completed work within designated timelines, and ensured client satisfaction.

Frontend Developer / Game Developer   December 2020 - November 2022
Wolves Interactive | Istanbul, Turkey

Worked simultaneously as a frontend developer and game developer at Wolves Interactive. Collaborated with the development team to create and maintain responsive web applications, utilizing HTML, CSS, and JavaScript to build interactive and visually appealing frontend components. Ensured cross-browser compatibility, accessibility, and adherence to design specifications. Additionally, contributed to the development of engaging and immersive game experiences, leveraging game development frameworks and tools. Conducted thorough testing, debugging, and actively participated in code reviews and team discussions to enhance development processes.

PROJECTS

Contracting Company Website
Developed a professional website for a contracting company, highlighting their services and portfolio. Created a modern design to enhance their online presence and attract potential clients.
- Visit website: **www.kuzugrup.com**

Restaurant Website
Created a user-friendly website for a local restaurant, featuring an interactive menu and online reservation system. Optimized the website for different devices and search engines.
- Visit website: **www.fulanerestaurant.com**

Personal Portfolio Website
Designed and developed a personalized portfolio website for a client to showcase their skills and experience. Created an engaging platform to help them attract potential clients and employers.

E-commerce Web
Developed an E-commerce web store application using Razor Pages, ASP.NET Core, and C#. The application was deployed on Azure Web Sites, ensuring its availability and scalability.
- Visit Website: **webcore.azurewebsites.net**
